

Time Par is the desired and reasonable period of time we expect a round of golf to be played at our course. We always aim to be under par, but rarely ever over par.

"With time being such a precious commodity today, slow play on the golf course remains one of the industry's major impediments of growth, this is why we are implementing standards at Troon-managed facilities that define pace-of-play expectations to ultimately remove a barrier that exists in the game and improve the experience of our guests and members."

Ryan Walls
Senior Vice President Operations, Sales & Marketing.

Pacesetter Tips - In line with efforts, Troon has identified similar tips and guidelines to help golfers manage their own pace of play.

These tips include:

1. **Play Your Tees:** Choose a set of tees with a rating of 142 minus your handicap index. Or just tee it forward.
2. **Play Ready Golf (tee to green):** When a player is at their ball or on the tee box and is ready to play, they should play. Take no more than 45 seconds to hit your shot.
3. **Be Cart Smart:** Drop off your partner and drive to your ball. When you leave the cart, take three clubs, not one. Park behind greens.
4. **Use Rules with Discretion:** Take no more than three minutes to look for balls and take relief.
5. **Keep Moving:** Proceed quickly to your ball and be ready when it's your turn to hit.
6. **See It, Read It, Hole It:** While others are putting, prepare for your putt.
7. **Be Accountable:** Recognize that slow play isn't just the fault of other players.
